## ABOUT ME

As a professional with more than 10 years of experience in administration and management of tourism enterprises, I have proven skills in administrative and accounting positions, as well as in the leadership of bilingual guides and restaurants.

In the last 2 years ago, I have been studying and applying my knowledge in different programming languages and I have fallen in love with computer science. Now, I am looking to start a career in this exciting sector and develop myself professionally.

I am a proactive, responsible, committed person with a positive attitude. I have teamwork skills, decision making, problem solving and good empathy skills. Also, I am always willing to learn and improve.

---
